<p>POLICY:</p> <p>It is the policy of the DCO to review emergency room usage by enrollees, with the primary diagnosis being a dental concern, obtained in a hospital outpatient setting.</p> <p>The Case Management Department will be notified by the enrollee's Coordinated Care Organization (CCO) of dental concerns addressed in the emergency room. The DCO also has a direct connection with the CollectiveMedical platform (EDie), which is fully integrated into its Case Management system, to monitor emergency room usage with dental diagnosis.</p>	

The Case Management Department will be responsible for follow up with the enrollee to find out why they accessed care through the emergency room within 14 days of receiving the information and work with them to schedule an appointment with their Primary Care Dentist (PCD).

Medical emergency and medical post stabilization services are not provided or covered by the DCO. However, dental services provided for the purposes of post stabilization provided by a DCO provider are covered by the DCO.

The DCO has a call system in place to address the enrollee’s dental concerns 24 hours a day 7 days a week. The enrollee will be sent written materials with the information on what to do in case of a dental emergency. The enrollee will be counseled on the importance of seeing their PCD on a regular basis for routine care to prevent future emergency situations.
